

Bonsai Sushi started in 2007. As it was our first shop, we contacted Melvin Wee of Sushi Machines Pty Ltd (after finding him from the internet search). After ordering the machine from Melvin, we were impressed with his service as he came to Adelaide to conduct the training personally.

Some 6 years have passed and we now decided to start "Bonsai Express". As we were very pleased with Melvin's services, we decided to use him again to supply us.

This is the second time we are dealing with Melvin from Sushi Machines. He still maintains the highest standard of service without compromise. We highly recommend using his services.
